

[www.OceanAcidification.net](http://www.OceanAcidification.net)

Ocean Ark Alliance would like to thank everyone for supporting the Ocean Art Challenge. The students, the schools and the organisations who have worked tirelessly to make this happen. The outstanding quality of the works on show here today display a deep appreciation of the topic and the rich diversity of our oceans.

In uniquely individual ways, they also paint a very moving picture of all the colour and life we risk losing. On a more uplifting note, it is great to see the incredible amount of passion today's students and future leaders have for ocean issues and the environment.
